Camp Description

Summer Skills and Readiness Soccer Camp is a Co-Ed K-8 camp designed to equip soccer players with some basic ideas for how to improve themselves as the fall season approaches. Most of the skills taught will involve the soccer player with a ball or a ball and a partner. Every camp day will include athletic development training, fun soccer games, technical and tactical instruction and free play. Our camp is fun, safe and challenging and is designed to improve the individual player. We strive to teach using a "love of the game" mentality with the hopes that the players leave camp excited about soccer and the fall season.
